### Izu-Oshima (伊豆大島)

Izu Oshima is the largest of the Izu Islands, near the Izu Peninsula. The center of Izu Oshima is an active volcano. The northern and western coasts of the island are famous for snorkeling, sunbathing and other beach activities during the summer season. During spring time, the island is covered with beautiful camellia flowers.

## Hachijojima (八丈島)

During ancient times, it was known as the island of exiles. Today's Hachijojima is a renowned tourist destination famous for oceanic activities (whale watching, turtle island, snorkeling, etc.), fine dining and watching the starry sky while relaxing in an outdoor hot spring.

## Shikinejima (式根島)

Another volcanic island of the Izu Seven islands, located approximately 160 km (90 miles) south of Tokyo. It is a small island with a population of 600 and features two onsen - Jinata Onsen and Ashitsuke Onsen. Due to its relatively small capacity for crowds, we recommend booking the reservation early.

## Jinata Hot Spring (地鉦温泉)

## Ashitsuke Hot Spring (足付温泉)
